

Auxiliary Relay

AR 1 auxiliary relay converts a 24Vac or 24Vdc control signal into a potential-free contact output. The width of the unit is 13mm.

AR 1 loads the control signal with ca 20mA (24 Vac). AR 1 has one normally open contact 230V, 10A (res.). Wires are connected to 2.5 mm² terminals.

AR 1 relay unit is enclosed in an IP 20 housing, and its dimensions are 13W x 85H x 48D mm.

Model Type	Model	Description
	AR 1	Auxiliary Relay
Technical Data	Control signal	24Vac, 0.5VA 24Vdc, 0.4W
	Contact	230Vac, 10A
	Dimensions	13W x 85H x 48D mm
Wiring Terminals	a	control 24Vac
	b	control 0Vac
	11	common (C)
	14	normally open contact (NO)
